Pharmacia is the official journal of the Institute of Professional Studies, College of Pharmacy. It is a tri-annual publication devoted to the science and practice of pharmacy in all its branches. The goal of this journal is to provide quality publications to disseminate knowledge, provide a learned reference in the field and to establish a channel of communication between academic and research experts, policy makers and executives in industry, commerce and investment institutions.

The journal is devoted to the promotion of pharmaceutical sciences and related disciplines (including biotechnology, cell and molecular biology, medical and other life sciences, and related engineering fields). It seeks to foster multi-disciplinary research and collaboration among scientists, pharmaceutical industries and healthcare sector as well as provide an international forum for the communication and evaluation of data, methods and opinions in pharmaceutical sciences and related disciplines. Although primarily devoted to original research papers, the journal particularly welcomes reviews on current topics of special interest and relevance. All manuscripts will be subjected to rapid peer review. Those of high quality (not previously published and not already under consideration for publication) will be published without delay.

The areas covered by this journal are:

Pharmaceutics

Pharmaceutical and Analytical Chemistry

Pharmacognosy and Natural Products

Pharmacology

Pharmaceutical Biotechnology

Immunotoxicology

Clinical pharmacy

Bioinformatics and regulatory affairs

Hospital and community pharmacy

## **PREPARING MANUSCRIPT**

### **1. Research Article Format**

The preferred format of all manuscripts are in MS office (2003 or above). Manuscript should be concisely typewritten in 1.5 spaces in A4 sized sheets. The pages shall be numbers consequently. The manuscript shall be prepared in Times New Roman using a font size of 12 and title shall be font size of 14, bold space capitals. All section titles in the manuscript shall be in font size 12, bold face capitals and subtitles in each section shall be in font size 12, bold face lower case. Illustrations (Figures & Tables) must be inserted at appropriate place in the article. Standard International Units should be used throughout the text. Pages should be numbered properly. There shall not be decorative borders anywhere in the text including the title page. The manuscript should be starting with the title page and the text should be arranged in the following order:

1. Title Page
2. Abstract
3. Keywords
4. Introduction
5. Materials and Methods
6. Results and Discussion
7. Conclusion
8. Acknowledgements
9. References

#### **Title Page**

The title should be as short as possible on the first page and provide precise information about the contents. The title should be followed by full names of author (s), affiliations of author (s) and institutional addresses.

#### **Authors and Co-Authors Details and Their Affiliations**

Each author must provide their full name including their forenames and surname. The Corresponding Author of the manuscript must be marked with an asterisk\*, and should be listed first. In addition the corresponding author must include Telephone and E-mail address at the bottom left corner of the title page. If any of the co-authors are from different organizations, their addresses too should be mentioned and indicated using numbers after their names. Maximum 6 authors should be allowed.

**Abstract**

Provide on a separate page an abstract of not more than 150-200 words. The Abstract should be informative and completely self-explanatory, briefly present the topic, state the scope of the experiments, indicate significant data, and point out major findings and conclusions.

**Keywords**

Provide three to five appropriate keywords after the abstract.

**Materials and Methods**

It should be complete enough to allow experiments to be reproduced. All the procedures should be described in detail, previously published procedures should be cited, and important modifications of published procedures should be mentioned briefly. Capitalize trade names and include the manufacturer's name and address. Subheadings should be used. Methods in general use need not be described in detail.

**Results**

Results and their significance should be presented clearly and concisely, preferably in the form of graphs and tables which should be self explanatory.

**Discussion**

It should contain a critical review of the results in the light of relevant literature. Results and Discussion may be combined.

**Conclusions**

This should state clearly the main conclusions of the research and give a clear explanation of their importance and relevance. Summary illustrations may be included.

**Acknowledgement**

Acknowledgements should be placed in a separate section after the conclusion. If external funding has been obtained for the study, then that should be mentioned under a separate header "Funding", after the acknowledgements.

**References**

The authors are responsible for the accuracy of the bibliographic information. It must be numbered consecutively in the order that they are cited in the text and designated by superscript with square brackets after the punctuation marks. A list should be included on separate 1.5 spaced pages at the end of the text.

### **Tables**

These should be numbered with Arabic numerals. Each table should be typed using a table format (i.e., each variable must be typed into a separate cell in the table) The title should be typed at the top of the table in the sentence case format, i.e., only the first name should be in capital letters; as appropriate. Any footnote should be typed at the bottom of the table.

### **Illustrations and Figures**

Figures must be numbered independently of tables, multimedia, and 3D models and cited as the relevant point in the manuscript text, e.g. "Fig. 1", "Fig. 2", etc. All figures including photographs should be numbered consecutively in Arabic numerals in the order of their appearance in the text and bear a brief title in lower case bold face letters below the figure.

## **2. Review Articles Format**

Review articles should not be more than 15 pages and contain comprehensive coverage of relevant literature. Review articles should preferably be written by scientists who have in-depth knowledge of the topic. All format requirements are similar to those applicable to Research papers. Review articles need not to be divided into sections such as Materials and methods, and Results and discussion, but should definitely have an abstract and introduction.

**3. SUBMISSION of THE MANUSCRIPT**

All submissions must be in the English, to our mail: [editor.pharmacia@gmail.com](mailto:editor.pharmacia@gmail.com) along with a covering letter preferably by the corresponding author.

**4. COPYRIGHT**

Submission of the manuscript represents that the manuscript has not been published previously and is not considered for publication elsewhere. Authors would be required to sign a Copy Right Transfer Agreement Form once the manuscript is accepted.

**5. GALLEY Proofs**

Unless indicated otherwise, galley proofs are sent to the address given for correspondence. It is the responsibility of the corresponding author to ensure that the galley proofs are returned without delay.
